#### **Capacity Planning in Long-Term Planning**

# **Capacity Planning in Long-Term Planning**

Long-term planning gives you an overview of future plans for production and procurement. You can plan several versions of the demand program using a simulated planning run and check the result using special evaluations. The planning run as well as the evaluations in long-term planning are separated from the tools in Materials Requirements Planning because long-term planning involves planning in simulation. Entries are made in a special planning file for long-term planning as well as simulated capacity requirements for long-term planning. The handling and functionality of long-term planning. Therefore the description of the capacity planning functions in MRP is also valid for long-term planning.

For further information, see <u>Capacity Planning in Master Production Scheduling and Material</u> <u>Requirements Planning [Ext.]</u>.
